Information in this document and on the CD are from my own experience plus documentation compiled from government sources. No information in this judgment system should be considered legal advice because I am not a lawyer. Instead I got into judgment collection because I was a landlord and I won a small claims judgment against a couple of my ex-tenants but they never paid me the money I won. I was frustrated and researched what the next steps were. I was successfully able to collect that first judgment using wage garnishments and Anoka County (MN) Sheriffs office who did the actual wage garnishment demand to my ex-tenants employer. I do not want to make it seem that I am giving legal advice because I am not, and some laws can change without my knowledge (thus it would not be reflected in this judgment system). I did my best writing this system, but some information could be old or even wrong, but this should help you get you started.
